

Well, what a strange year this has shaped up to be. From Swansea to Cowes to Nantwich, the whole country has been left in lockdown after further spikes in the disease.

Fortunately, this has not deterred Santa who was prepared for his usual swift deliveries. He will share these with Rudolph and his reindeer friends who are all amazingly well having shaken off the winter blues.

Bearing in mind that we have all missed the shops this year Santa will use all his resources and do everything he can to deliver food as well as presents when he is able. The *Bugle* team have already ordered their turkey, goose and chicken in preparation for the big day.

Our compiler has been beavering away on our twenty second festive issue which we can now share with you. The absence of ‘True or False’ is new this time but, otherwise, the scoring remains the same.

In addition to the points available after each poser there is:

1. One point for each of the ten deliberate spelling mistakes dotted about the first seven pages.

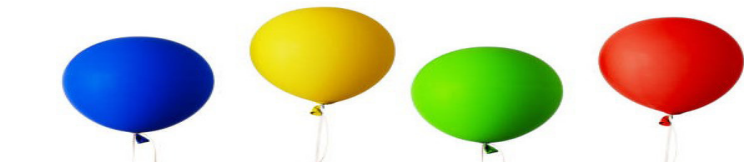

2. One point (to a maximum of 29) for identifying the European countries from which our guest contributors hail. Their names appear in anagram form after their contribution.

We still have four bottles of wine left from last year, so please get your skates on and do everything you can to let us have an early entry. When our panel of judges have marked your entries we will share the bottles between the top three entrants and a random entry pulled out of the hat. So, please swallow your inhibitions and have a go at it this year. Our compiler was pleased with all your efforts last year.

This introduction contains the names of over forty creatures (birds, fish, animals and insects). Some are repeated and points are awarded for duplicates. Some may span more than one word and some may have two creatures within one word (eg/ beagle contains both beagle and eagle and whelk contains both whelk and elk).

There is one point each to a maximum of forty.

Please send your entries to Ralph Horton at 18 Highcroft to arrive by the 15th January.

Fox On The Run

Farmers have so many difficulties to contend with and this year has been harder than most.

Martin was faced with the following problem.

The fields and gates were waterlogged and he had to get his chicken, grain and pet fox across to his field on the other side of the canal. If he left the chicken alone with the grain it would eat it all at once but the fox would eat the chicken if they were left together. If Martin was with them the chicken would not eat the grain and the fox would not eat the chicken.

He used his boat to cross the canal but could only transport one item at a time. How did he manage to get the chicken, grain and fox to the other side whilst averting a catastrophe?

A CHRISTMAS ~~TALE~~ TRAIL

The organisers would like to thank everyone who helped or participated in All Saints Church Christmas Trail. In such a difficult year for fund-raising it is particularly heart-warming that the event has raised a similar amount to our traditional Christmas Tree Festival, which is truly amazing! The displays and illuminations certainly helped to brighten up a dark night, and a dark year... and hopefully brightened up a few of our spirits as well! It was especially fascinating to see the many novel ways that the theme of 'Christmas' had been interpreted.

The winners of the competitions were:

Outside Display

42 *A Winter's Tale* - 10 Berridges Lane

Window Display

10 *The Toy Shop* - 13 School Lane

Winner of the Christmas Cake

Derek Watson

THE BUGLE TEAM would like to thank our contributors, sponsors, advertisers and especially our readers, for your continuing support during 2020 and wish you all a **VERY HAPPY CHRISTMAS** and **PROSPEROUS NEW YEAR...**

Our next full edition will be the February issue.
